Display pages

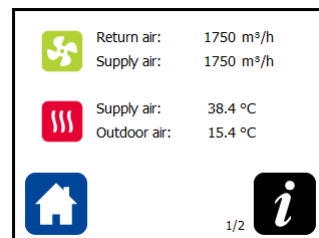

There are four main menu pages which are used most frequently: the start/stop page, info pages, the set point pages, and the alarm page.

These allows to easily perform all remote control functions:

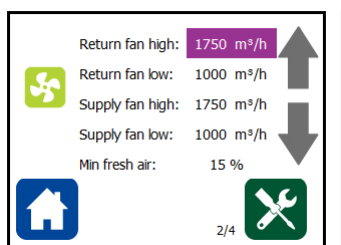

- start or stop the unit
- change set points for room temperature and relative humidity for occupied and unoccupied pool hall
- calibrate air volumes for supply, return and minimum outdoor air
- set minimum and maximum supply temperature
- set alarms
- select preferred notification and click sounds
- change language
